SUMMARY

Motivated B. Tech CSE student and MERN stack developer with strong foundations in full-stack web development, backend systems, and problem solving. Experienced in building scalable web applications with JWT authentication, role-based access control, and RESTful APIs through hands-on project development. Skilled in developing responsive frontend applications and passionate about software engineering, system design, and strengthening DSA and core computer science fundamentals.

EDUCATION

Dr. APJ Abdul Kalam Technical University (AKTU) — **Gr. Noida**
B. Tech in Computer Science and Engineering; ***GPA: 7.9/10.0*** — *Expected Graduation: May 2028*

Modern School (CBSE) — **Noida**
Board Examination **(Class XII)***;* ***Score: 93.2%*** — *Completion: 2024*

Modern School (CBSE) — **Noida**
Board Examination **(Class X)***;* ***Score: 96.6%*** — *Completion: 2022*

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C
Web Technologies: HTML, CSS, React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, Mongoose, REST APIs, JWT
Databases/Cloud: MongoDB, AWS Basics(S3, Lambda, API Gateway, CloudFront, DynamoDB)
Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Vercel
Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, System Design Fundamentals

PROJECTS

Collabix — Collaborative Workspace Management Platform

Tech Stack: *Next.js, React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, shadcn/ui*

GitHub Repo | Live Demo

- Built and deployed a full-stack collaborative workspace platform with workspaces, boards, Kanban task management, comments, and member management.
- Implemented JWT-based authentication and role-based access control (Owner/Admin/Member) across protected APIs and frontend routes.
- Designed RESTful APIs for workspace, board, task, comment, and activity management using modular backend architecture and middleware-based authorization.
- Developed a responsive Next.js frontend with reusable shadcn/ui components, dark/light mode, and seamless backend API integration.

Gamezzz — Free-to-Play Game Discovery Platform

Tech Stack: *React.js, Vite, Tailwind CSS, DaisyUI*

GitHub Repo | Live Demo

- Built a responsive platform for discovering and exploring free-to-play games using React and reusable UI components.
- Designed a modern, responsive interface with Tailwind CSS and DaisyUI and deployed the application on Vercel.

Typing Speed Tester

Tech Stack: *HTML, CSS, JavaScript*

GitHub Repo | Live Demo

- Developed a responsive real-time typing tester with WPM, accuracy, mistake tracking, timers, and interactive typing feedback.
- Implemented the application using core JavaScript and DOM manipulation without external libraries or frameworks.

CERTIFICATIONS

- **AWS Academy Cloud Developing – AWS** | Certificate
- **AWS Academy Cloud Operations – AWS** | Certificate
- **Java Programming Fundamentals – Infosys** | Certificate

ACHIEVEMENTS

- Solved 250+ DSA problems on LeetCode using Java.
